All new students will be enrolled on tuition Plan A. Any family with students enrolling after February for the next school year may pay the current tuition due in one lump sum or by dividing the total annual tuition by the months left in the plan year. For example, a family with two students enrolls in June. They will be responsible for 5 months of tuition (February through June - \$4368.75) at the time of enrollment. They may pay this amount in one lump sum and then begin making regular monthly payments in July OR divide the total annual tuition into eight equal payments ($\$10,485 / 8 \text{ months} = \$1310.63 \text{ per month}$) to be paid June through January.

Plan B is available only for students who were enrolled in the 2008-2009 school year or earlier. One may not change from Plan A to Plan B. However, arrangements to convert from Plan B to Plan A can be made with the business manager. Payment on tuition is due the first day of each month and should be paid promptly. Payments not received by the **15th of the month are declared delinquent. **A late fee of 5%** will be added to the unpaid balance. Tuition accounts must be kept current. Tuition is nonrefundable and nontransferable. All payments for the previous year must be cleared before the student is allowed to enter school on a new calendar year.
